#### **Did You Know?**

- You need 50 hours of supervised driving experience with an adult to obtain a California driver's license.
- It takes only 6 hours of supervised behind the wheel experience with a certified driving instructor to get a California driver's license. Yet, a manicurist must complete 400 hours under supervision to be licensed in the state of California!
- Teen drivers are at the highest risk. The crash rate (per mile driven) for 16 year olds is four times that of adult drivers.
- Having
   passengers is a
   serious distraction
   for teen drivers.
   Carrying 3 or more
   passengers
   increases the risk
   of a crash for 16
   and 17 year olds
   three-fold
   compared to
   driving alone.
